Index to Volume 43

AUTHORS

A

Anderson, Mark (see Richard Heim)

B

Bernier, André, Outdoor Weathercasting, April (43:88)
Blackadar, Alfred, Computer Butterflies: An Adventure in Chaos, August (43:210)
———, Using Your Computer: Computer Weather Maps: Contouring Observed Data, June (43:154)
———, Using Your Computer: Predicting Phases of the Moon, October (43:281)
———, Using Your Computer: When Is the Next Eclipse?, December (43:350)
———, Using Your Computer: The Wind Above the Willows, April (43:103)
Bohren, Craig, Simple Experiments in Atmospheric Physics: All That Glistens Isn't Dew, October (43:284)
———, Simple Experiments . . . : All That's Best of Dark and Bright, June (43:160)
———, Simple Experiments . . . : Water Vapor Mysticism, April (43:97)
———, Simple Experiments . . . : You Never Miss the Water Till the Creek Runs Dry, December (43:342)
Brausch, Jay, North Dakota Nights, June (43:144)
Brotak, Edward, Audio Visuals about the Weather: Great Hugo Videos, August (43:226)
———, Audio Visuals . . . : Ocean Impacts and Tornado Close-ups, October (43:288)
———, Audio Visuals . . . : Thunderstorms and Hurricanes, April (43:102)
———, Audio Visuals . . . : Tornado Warning!, Meteorology Today, December (43:353)
Brune, William, Ozone Crisis, June (43:136)

C

Case, Bob, Hurricanes [1989]: Strong Storms Out of Africa, February (43:23)
Cerveny, Corlyn (see Randy Cerveny)
Cerveny, Randy, Joe Schumacher, and Corlyn Cerveny, Tall-Tale Weather, October (43:248)

D

Davies, Jon, Midget Supercell Spawns Tornadoes, October (43:260)
Dewey, Kenneth (see Richard Heim)
Dorr, Bud, Bombs and Ultrabombs, April (43:76)

F

Faidley, Warren, Capturing the Unexpected, December (43:213)
Ferguson, Edward W., (see Frederick P. Ostby)

G

Gedzelman, Stanley David and Elaine Lewis, Warm Snowstorms: A Forecaster's Dilemma, October (43:265)

H

Heim, Richard, Kenneth Dewey, and Mark Anderson, A December to Remember, December (43:329)
Hickcox, David H., Hot Spots and Cold Spots, February (43:44)
Holloway, Leith, Watch Your Shadow: The Ozone Layer and Sunburn, June (43:141)
Hughes, Patrick, The Great Galveston Hurricane, August (43:190)

K

Kimmel, Daniel M., Weather at the Movies, June (43:128)

L

Lawrence, Miles, Eastern Pacific Tropical Cyclones, February (43:30)
LeComte, Doug, Highlights in the United States [1989] . . . , February (43:8)
———, . . . and Around the World [1989], February (43:16)
Leftwich, Preston W., Jr. (see Frederick P. Ostby)
Levine, Stephen Eric, Thunderstorm Therapy, April (43:84)
Lewis, Elaine (see Stanley David Gedzelman)
Littin, Bud, Citizen Weather Observers, October (43:254)
Long, Sam, Weather Names and Baseball Games, August (43:184)
Ludlum, David M., Snow: A Dry Season, February (43:41)
———, Weatherwatch: November, December 1989, February (43:49)
———, Weatherwatch: January, February 1990, April (43:107)
———, Weatherwatch: March, April 1990, June (43:166)
———, Weatherwatch: May, June 1990, August (43:227)
———, Weatherwatch: July, August 1990, October (43:289)
———, Weatherwatch: September, October 1990, December (43:354)

M

Minsinger, W. E., The South Lawrence Tornado, June (43:148)
Monastersky, Richard, Forecasting into Chaos, August (43:202)

O

Ostby, Frederick P., Edward W. Ferguson, and Preston W. Leftwich, Jr., Tornadoes: A Strange Year, February (43:32)

R

Reed, Mary, The Mail Must Go Thru!, December (43:339)
———, Weather Talk: Beastly Weather, October (43:274)
———, Weather Talk: Dr. Merryweather's Tempest Prognosticator, August (43:224)
———, Weather Talk: In a Meteorological Garden, April (43:94)
———, Weather Talk: Singing in the Rain—in the Rain, June (43:159)
Roche, Kirby, A Matter of Degrees, August (43:200)
———, The Mystique of Disaster, October (43:262)

S

Schlatter, Thomas, Weather Queries: The Columbus Day Storm, Orographic Clouds, and Radar Ground Clutter, October (43:278)
———, Weather Queries: Dew Point-ers, December (43:348)
———, Weather Queries: Rip Currents, June (43:165)
———, Weather Queries: Satellite Storm Tracking, April (43:90)
Schmid, Randolph E., Software Review: Weather Pro 5.0, April (43:105)
Schumacher, Joe (see Randy Cerveny)

T

Thomas, Merrilee, Sunday Visitors, April (43:72)

V

Vaeth, J. Gordon, What Happened to the *Hindenburg*?, December (43:315)

W

Wagner, Jim, Northern Hemisphere Circulation. High Latitude Persistence, February (43:19)
Winterling, George, Jacksonville's White Christmas, December (43:334)
Wright, Fred W., Jr., The Hottest TV Weather Market in the Country, June (43:151)

Y

Young, Douglas and Wendy Young, Mother Goose and the Weather, December (43:324)
Young, Wendy (see Douglas Young)

SUBJECTS

Astronomy
Using Your Computer: Predicting Phases of the Moon, by Alfred Blackadar, October (43:281)
Using Your Computer: When Is the Next Eclipse?, by Alfred Blackadar, December (43:350)

Atmospheric Circulation
Northern Hemisphere Circulation: High Latitude Persistence, by Jim Wagner, February (43:19)
Weather Queries: Satellite Storm Tracking, by Thomas Schlatter, April (43:90)

Atmospheric Composition
Ozone Crisis, by William Brune, June (43:136)

Audio Visuals
Audio Visuals about the Weather : Great Hugo Videos, by Edward Brotak, August (43:226)
Audio Visuals . . . : Ocean Impacts and Tornado Closeups, by Edward Brotak, October (43:28)
Audio Visuals . . . : Thunderstorms and Hurricanes, by Edward Brotak, April (43:102)
Audio Visuals . . . : Tornado Warning!, Meteorology Today, by Edward Brotak, December (43:353)

Auroras
North Dakota Nights, by Jay Brausch, June (43:144)

Aviation
Bombs and Ultrabombs, by Bud Dorr, April (43:76)
What Happened to the *Hindenburg*?, by J. Gordon Vaeth December (43:315)

Biometeorology
Watch Your Shadow: The Ozone Layer and Sunburn, by Leith Holloway, June (43:141)

Chaos
Computer Butterflies: An Adventure in Chaos, by Alfred Blackadar, August (43:210)
Forecasting into Chaos, by Richard Monastersky, August (43:202)

Clouds
Weather Queries: . . . Orographic Clouds . . . , by Thomas Schlatter, October (43:278)

Computers
Computer Butterflies: An Adventure in Chaos, by Alfred Blackadar, August (43:210)
Software Review: Weather Pro 5.0, by Randolph E. Schmid, April (43:105)
Using Your Computer: Computer Weather Maps: Contouring Observed Data, by Alfred Blackadar, June (43:154)
Using Your Computer: Predicting Phases of the Moon, by Alfred Blackadar, October (43:281)
Using Your Computer: When Is the Next Eclipse?, by Alfred Blackadar, December (43:350)
Using Your Computer: The Wind Above the Willows, by Alfred Blackadar, April (43:103)

Demonstrations and Experiments
Computer Butterflies: An Adventure in Chaos, by Alfred Blackadar, August (43:210)
Simple Experiments in Atmospheric Physics: All That Glistens Isn't Dew, by Craig Bohren, October (43:284)
Simple Experiments . . .: All That's Best of Dark and Bright, by Craig Bohren, June (43:160)
Simple Experiments . . . : Water Vapor Mysticism, by Craig Bohren, April (43:97)
Simple Experiments . . .: You Never Miss the Water Till the Creek Runs Dry, by Craig Bohren, December (43:342)

Dew
Simple Experiments in Atmospheric Physics: All That Glistens Isn't Dew, by Craig Bohren, October (43:284)

Eclipses
Using Your Computer: Predicting Phases of the Moon, by Alfred Blackadar, October (43:281)
Using Your Computer: When Is the Next Eclipse?, by Alfred Blackadar, December (43:350)

Florida
The Hottest TV Weather Market in the Country, by Fred W. Wright, Jr., June (43:151)
Jacksonville's White Christmas, by George Winterling, December (43:334)

Folklore
Mother Goose and the Weather, by Douglas and Wendy Young, December (43:324)
Tall-Tale Weather, by Randy Cerveny et al., October (43:248)
Weather at the Movies, by Daniel M. Kimmel, June (43:128)
Weather Names and Baseball Games, by Sam Long, August (43:184)
Weather Talk: Beastly Weather, by Mary Reed, October (43:274)
Weather Talk: Dr. Merryweather's Tempest Prognosticator, by Mary Reed, August (43:224)
Weather Talk: In a Meteorological Garden, by Mary Reed, April (43:94)
Weather Talk: Singing in the Rain—in the Rain, by Mary Reed, June (43:159)

Forecasting
Forecasting into Chaos, by Richard Monastersky, August (43:202)

Warm Snowstorms: A Forecaster's Dilemma, by Stanley David Gedzelman and Elaine Lewis, October (43:265)
Weather Talk: Dr. Merryweather's Tempest Prognosticator, by Mary Reed, August (43:224)

History
Citizen Weather Observers, by Bud Littin, October (43:254)
The Great Galveston Hurricane, by Patrick Hughes, August (43:190)
The Mail Must Go Thru!, by Mary Reed, December (43:339)
The South Lawrence Tornado, by W. E. Minsinger, June (43:148)
Weather Queries: The Columbus Day Storm . . . , by Thomas Schlatter, October (43:278)
What Happened to the *Hindenburg*?, by J. Gordon Vaeth, December (43:315)

Humidity
Simple Experiments . . . : Water Vapor Mysticism, by Craig Bohren, April (43:97)
Weather Queries: Dew Point-ers, by Thomas Schlatter, December (43:348)

Hurricanes and Tropical Cyclones
Eastern Pacific Tropical Cyclones, by Miles Lawrence, February (43:30)
The Great Galveston Hurricane, by Patrick Hughes, August (43:190)
Hurricanes [1989]: Strong Storms Out of Africa, by Bob Case, February (43:23)

Index
Index to Volume 42, February (43:58)

Instruments
A Matter of Degrees, by Kirby Roche, August (43:200)
Weather Talk: Dr. Merryweather's Tempest Prognosticator, by Mary Reed, August (43:224)

COVERS

February—A GOES-7 infrared image of Hurricane Hugo as its eye hits the South Carolina coast, September 21, 1989, NOAA photo, courtesy John Shadid.

April—"True Nebraska Grit," a prize-winning photo by Merrilee K. Thomas. Merilee's daughter Audra stands in front of a tornado. Photo courtesy of Kodak International Newspaper Snapshot Awards.

June—A NASA satellite image of atmospheric ozone concentration on October 7, 1989, showing a "hole" over the South Pole larger than the Antarctic continent. Courtesy Mark Schoeberl, NASA Goddard Space Flight Center.

October—Approach to Dracula's castle. Weather plays a big part in the original novel. Art by Ron Blalock and Jennifer Murphy.

December—The *Hindenburg* on a Deutsche Zeppelin Reederei travel poster announcing trans-Atlantic dirigible service, courtesy J. Gordon Vaeth.

Kansas
Midget Supercell Spawns Tornadoes, by Jon Davies, October (43:260)

Massachusetts
The South Lawrence Tornado, by W. E. Minsinger, June (43:148)

Meteorology, History of
A Matter of Degrees by Kirby Roche, August (43:200)
Weather Talk: Dr. Merryweather's Tempest Prognosticator, by Mary Reed, August (43:224)

Mountains
Weather Queries: . . . Orographic Clouds . . . , by Thomas Schlatter, October (43:278)

Nebraska
Sunday Visitors, by Merrilee Thomas, April (43:72)
Tall-Tale Weather, by Randy Cerveny et al., October (43:248)

North Dakota
North Dakota Nights, by Jay Brausch, June (43:144)

Observing
Citizen Weather Observers, by Bud Littin, October (43:254)

Ocean Storms
Bombs and Ultrabombs, by Bud Dorr, April (43:76)
Weather Queries: The Columbus Day Storm . . . , by Thomas Schlatter, October (43:278)

Optics
Simple Experiments in Atmospheric Physics: All That's Best of Dark and Bright, by Craig Bohren, June (43:160)

Oregon
Weather Queries: The Columbus Day Storm . . . , by Thomas Schlatter, October (43:278)

Ozone Layer
Ozone Crisis, by William Brune, June (43:136)
Watch Your Shadow: The Ozone Layer and Sunburn, by Leith Holloway, June (43:141)

Personalities
Celsius, Anders (1701–1747): A Matter of Degrees, by Kirby Roche, August (43:200)
Fahrenheit, Gabriel (1606): A Matter of Degrees, by Kirby Roche, August (43:200)
Mitchell, J. Murray (1928–1990): A Man for All Seasons, by Bob Ryan, Linda Dove, and Patrick Hughes, October (43:309)

Photography
Capturing the Unexpected, by Warren Faidley, December (43:213)
North Dakota Nights, by Jay Brausch, June (43:144)
1990 Photo Contest Winners, August (43:215)

Radar
Weather Queries: Radar Ground Clutter, by Thomas Schlatter, October (43:278)

Rainbows
Capturing the Unexpected, by Warren Faidley, December (43:213)

Reporting and Weathercasting
The Hottest TV Weather Market in the Country, by Fred W. Wright, Jr., June (43:151)
Outdoor Weathercasting, by André Bernier, April (43:88)

Research
Bombs and Ultrabombs, by Bud Dorr, April (43:76)
Ozone Crisis, by William Brune, June (43:136)

Snow
A December to Remember, by Richard Heim et al., December (43:329)
Jacksonville's White Christmas, by George Winterling, December (43:334)
The Mail Must Go Thru!, by Mary Reed, December (43:339)
Snow [1988–89]: A Dry Season, by David M. Ludlum, February (43:41)
Warm Snowstorms: A Forecaster's Dilemma, by Stanley David Gedzelman and Elaine Lewis, October (43:265)
Weather Queries: Dew Point-ers, by Thomas Schlatter, December (43:348)

Solar Radiation
Simple Experiments . . . : You Never Miss the Water Till the Creek Runs Dry, by Craig Bohren, December (43:342)
Watch Your Shadow: The Ozone Layer and Sunburn, by Leith Holloway, June (43:141)

Storm Chasing
Midget Supercell Spawns Tornadoes, by Jon Davies, October (43:260)
Thunderstorm Therapy, by Stephen Eric Levine, April (43:84)

Temperatures
A December to Remember, by Richard Heim et al., December (43:329)
Hot Spots and Cold Spots, by David Hickcox, February (43:44)
Weather Queries: Dew Point-ers, by Thomas Schlatter, December (43:348)

Texas
The Great Galveston Hurricane, by Patrick Hughes, August (43:190)

Thunderstorms
Thunderstorm Therapy, by Stephen Eric Levine, April (43:84)

Tornadoes
Midget Supercell Spawns Tornadoes, by Jon Davies, October (43:260)
The South Lawrence Tornado, by W. E. Minsinger, June (43:148)
Sunday Visitors, by Merrilee Thomas, April (43:72)
Tornadoes [1989]: A Strange Year, by Frederick P. Ostby et al., February (43:32)

Volcanoes
The Mystique of Disaster, by Kirby Roche, October (43:262)

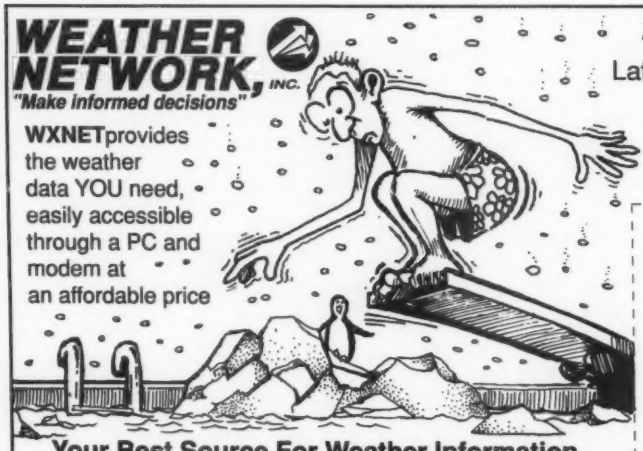
Washington
Weather Queries: The Columbus Day Storm . . . , by Thomas Schlatter, October (43:278)

Weather Summaries
Highlights in the United States [1989] . . . , by Doug LeComte, February (43:8)
. . . And Around the World [1989], by Doug LeComte, February (43:16)
Weatherwatch, by David M. Ludlum:
November, December 1989, February (43:49)
January, February 1990, April (43:107)
March, April 1990, June (43:166)
May, June 1990, June (43:227)
July, August 1990, October (43:289)
September, October 1990, December (43:354)

Wind
Using Your Computer: The Wind Above the Willows, by Alfred Blackadar, April (43:103)

WEATHER NETWORK, INC.
"Make informed decisions"

WXNETprovides the weather data YOU need, easily accessible through a PC and modem at an affordable price



Your Best Source For Weather Information

MAKE INFORMED DECISIONS
Latest forecasts available 24-hours-a-day
- Toll-free communications
- Low $15 registration fee

No long-term contracts required
